

**Dear Partners,**

### **Welcome to Nordfilm Packaging**

The big chance is said to come once in everyone's life... This is an opportunity of a lifetime that has to be taken, because it might never return back. We believe this big moment has just arrived for us. Everything was given to create something new, something unique by using the old bases. Nordfilm Packaging was born to develop the potential that the manufacturing of flexible packaging holds today and for the future.

The company was established in November 2016 and we immediately set out on the planning work of our plant. The facility is being built on a greenfield site in Hatvan, and it will use state-of-the-art technology to meet the highest customer requirements. Production is expected to start in September 2018 aiming at markets in both Hungary and Europe.

We are firmly convinced of welcoming you soon among our customers as well and together we bring new initiatives, new spirit to the packaging industry in Hungary and beyond. Up to that time you will be informed of actual news and events about our company via newsletters.

**Should you have any questions regarding our company, our products, please use the online or physical contact information we have provided below.**

We wish you a happy holiday season and a prosperous 2018.

Yours sincerely,

**Agnes Neuhaus**  
Sales Manager
